

MJets Air Renews Long-Term Partnership with AIR SUPPORT® for PPS Flight Planning®

Billund, Denmark / Sepang, Selangor, Malaysia- May, 2026: MJets Air has renewed its agreement with AIR SUPPORT for PPS Flight Planning, extending a successful long-term collaboration.

The renewal reflects the continued value PPS Flight Planning brings to MJets Air's operations, supporting efficiency, reliability, and confident decision-making across its Operations Control Center.

"Our decision to renew was driven by the consistency and reliability of AIR SUPPORT's solutions in our day-to-day operations," says Paveen Nair, Head of Operations Control Center at MJets Air. "The platform has become an important part of our planning workflow, and we value both the system capabilities and the responsive support behind it. Beyond the software itself, the operational benefits, efficiency gains, and confidence it gives our team made the renewal a natural decision."

Over the past years, PPS Flight Planning has become an integrated part of MJets Air's operational setup, supporting accurate flight planning and streamlined workflows across its fleet of six aircraft.

"We truly value our partnership with MJets Air and are proud to continue supporting their operations," says John Tan, Sales Manager APAC at AIR SUPPORT. "Their renewal reflects a strong collaboration built over the past years, and we appreciate the trust they place in both our solutions and our team. We look forward to continuing this journey together."

About MJets Air

MJets Air is a Malaysia-based air cargo operator and a flagship entity within the MMAG Aviation Consortium (MAC), operating from Kuala Lumpur International Airport. The company provides a range of air freight and logistics services supported by its dedicated aircraft fleet and aviation infrastructure.

MJets Air holds an AOC issued by the Civil Aviation Authority of Malaysia (CAAM), along with additional operational licenses from the Malaysian Aviation Commission (MAVCOM), enabling a broad scope of aviation and cargo operations.

With a focus on efficiency, reliability, and service quality, MJets Air plays an active role in regional logistics and serves as a strategic gateway for air cargo distribution across ASEAN.
