

PRESS RELEASE

# SolitAir Selects PPS Flight Planning® and OpsControl® from AIR SUPPORT A/S

**Billund, Denmark, March 13, 2025:** SolitAir, the UAE's only dedicated cargo-agnostic airline operating express daily scheduled services between Dubai and high-yield key trade routes across the Global South, has selected AIR SUPPORT's PPS Flight Planning® and OpsControl® aircraft tracking software solutions to power its flight operations.

The partnership underscores AIR SUPPORT's dedication to delivering state-of-the-art flight planning and operational solutions that empower airlines to optimize their performance.

By integrating PPS Flight Planning and OpsControl, SolitAir will benefit from industry-leading technology that enhances operational efficiency, fuel optimization and precise aircraft tracking. The recent launch of PPS X, the 10th generation of AIR SUPPORT's renowned flight planning system, brings even greater reliability, fuel calculation accuracy and optimized flight routing – key factors in supporting SolitAir's commitment to seamless logistics and cost-effective operations.

"We are proud to welcome SolitAir to the PPS family," says Stephen Young, Vice President of Sales at AIR SUPPORT A/S. "PPS Flight Planning has proven itself as the go-to solution for airlines across the world when efficiency, reliability, quality and accuracy are demanded by the customer. Our cutting-edge solutions will not only support SolitAir in achieving outstanding operational performance and cost savings but also enhance the workflow for their dispatchers. By deploying complex integrated OCC environments tailored to SolitAir's needs, we are making their operations smoother and more efficient than ever."

Hamdi Osman, Founder and CEO of SolitAir, says: "We are excited to partner with AIR SUPPORT and integrate their cutting-edge PPS Flight Planning and OpsControl solutions into our operations. This collaboration is a significant step towards enhancing the efficiency, reliability, and scalability of our services as we continue to expand our fleet and global network. With their innovative technology, we are confident that SolitAir will be able to provide even more efficient and cost-effective air cargo solutions to our customers, ensuring seamless operations and superior performance across our key markets in the Global South."

SolitAir currently operates two narrow-body Boeing 737-800 freighters, each with a 23-tonne capacity. The airline will add several new aircraft to its fleet this year, supporting the company's expansion plans into India, Bangladesh, key markets in Africa, Central Asian countries, and other Middle Eastern hubs. The airline

aims to connect over 50 cities within the Global South, within a six-hour flying radius from its Dubai World Central (DWC) headquarters.

#### Notes to the Editor

##### About AIR SUPPORT A/S

Founded in 1989, AIR SUPPORT® is a global provider of flight planning and operational control solutions for commercial and business aviation. Headquartered in Denmark with regional teams in Canada, Singapore, Belgium & France. Our PPS Flight Planning® and OpsControl® solutions are trusted by over 500 operators across 100+ countries, ensuring safe, efficient, and cost-effective flight operations worldwide.

##### About SolitAir

Dubai World Central (DWC)-headquartered SolitAir is the UAE's only dedicated cargo-agnostic airline operating express daily scheduled services between Dubai and high-yield key trade routes across the Global South, catering to the bespoke transportation needs of freight forwarders, integrator airlines, SMEs, and e-commerce businesses. Thanks to its agile, customer-centric, and technologically advanced B2B, middle mile business model, SolitAir ensures the swift, efficient, and reliable airport-to-airport movement of goods and products. As a complementary partner to the global supply chain ecosystem, SolitAir bridges critical connections and delivers tailored speed-to-market solutions.

SolitAir operates a growing fleet of modern narrow-bodied Boeing 737-800 aircraft connecting Dubai World Central (Al Maktoum International Airport) to high-yield Global South markets across the Middle East, Africa, the Sub-Continent, and Central Asia while adhering to stringent global, regional, and local regulations.

With a commitment to reliability, speed, flexibility and efficiency, SolitAir ensures seamless deliveries of Dangerous Goods, Pharmaceuticals, Perishables (including Meat, chicken and fish, and Frozen Goods), Valuable Goods, Vulnerable Goods, Oversized Freight and e-commerce.

SolitAir was founded by Hamdi Osman in 2024, who currently serves as CEO. Hamdi is the former Senior Vice President of FedEx Express Europe, Middle East, Indian Subcontinent, and Africa.
